### **The Centre for Corporate Accountability**

The CCA is a charity concerned with worker and public safety – with a particular focus on the role of state bodies in the enforcement of health and safety law, investigation of work related death and injury, and the prosecution of those responsible. It runs Britain's only national advice service for families bereaved from work-related deaths on investigation and prosecution issues arising from the deaths (which is independent, free and confidential). It has a Legal Services Commission Quality Advice Mark. The CCA has been involved in the debates around reform of corporate manslaughter since the late 1990's.
